PRODUCT DESCRIPTION

Designer: Will Earl

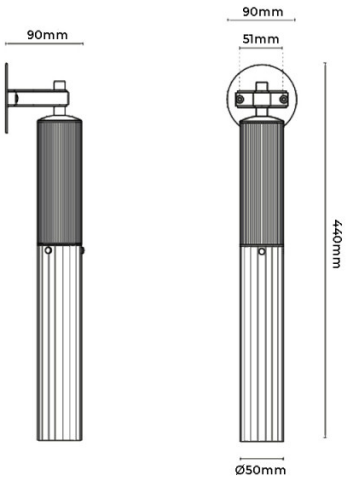

J. Adams & Co Flume Wall Light

Inspired by the mid-century and Art Deco eras, the J. Adams & Co Flume Wall Light features an elegant, slimline form with a reeded brass body and a clear or frosted reeded shade. This refined combination balances elegance with functionality, reflecting J. Adams & Co's commitment to thoughtful design and enduring craftsmanship. Available in Antique Brass, Satin Brass, Bronze, or Satin Nickel, the metal finish adds a luxurious touch to both classic and contemporary interiors.

When illuminated, the finely reeded glass softly diffuses light into a gentle glow while downward-directed light offers practical task lighting. Display in bedrooms, living areas, dining areas, and hospitality spaces to add a touch of sophistication that enhances any space. The Flume Wall Light can be displayed with other pieces from the **Flume Collection** to create a cohesive theme with a timeless, tactile quality.
