PRODUCT DESCRIPTION

Designer: Lodes

Lodes Puzzle Outdoor Single LED Wall Light

Lodes Puzzle Outdoor Single LED Wall Light takes the circular design of the original Puzzle collection outside. Developed by Lodes in 2025, the metal fitting has a rounded front that sits away from the wall, allowing indirect light to spread across the surface behind it. The light picks out details and textures in exterior walls, bringing the same approach to reflected illumination found in the indoor Puzzle collection.

The circular fitting can rotate through 355° and tilt by up to 85°, giving some control over the direction of the light. It can be positioned to wash light across a wall or angled to illuminate particular architectural features. The integrated LED is compatible with TRIAC dimming, allowing the brightness to be adjusted.

Puzzle Outdoor Single comes in Matte White, Matte Anthracite, Matte Champagne, and Natural Brown. Each finish offers a different way of pairing the light with the surrounding wall, either blending with the surface or providing some contrast. Rated IP65, the fitting is suitable for exterior installation, particularly around residential entrances, garden walls, terraces, and outdoor stairways, as well as commercial building facades.

Please note, this product is also available in 3000K upon request. For further information and pricing, please contact us.

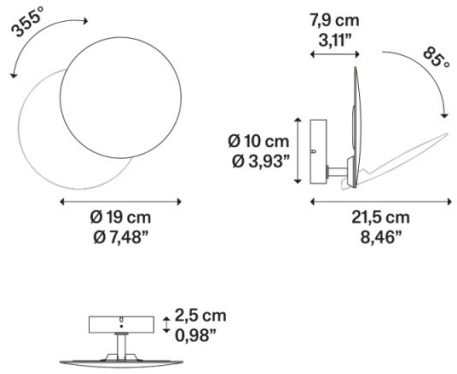

PRODUCT SPECIFICATION

Light Source: 16W, 2700K, 1600 Lumens

IP Code: 65

Dimming: Dimmable via Triac dimming.

Dimensions: Fixture: Ø19cm
Depth: 7.9cm
Maximum Projection: 21.5cm
Wall Mount: Ø10cm
Wall Mount Depth: 2.5cm
