PRODUCT DESCRIPTION

Designer: Will Earl

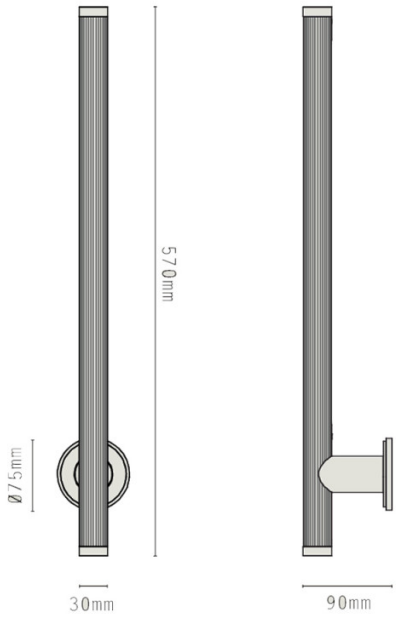

J. Adams & Co Talbot LED Wall Light

The J. Adams & Co Talbot LED Wall Light offers a contemporary take on classic library lighting, with a slimline silhouette and refined reeded brass detailing. Its brass frame is available in Antique Brass, Bronze, Satin Brass, and Satin Nickel finishes, bringing a luxurious touch to residential and commercial interiors. Each piece is hand-finished, using traditional techniques, giving every piece subtle variation in tone and texture.

When illuminated, the Talbot LED Wall Light casts a narrow beam onto the surrounding wall, where it reflects to create a warm, diffused glow. This soft light creates a comfortable ambience in studios, reading nooks, bedrooms, and hospitality settings. Install a pair to frame a doorway or bed, or arrange several along a hallway.
