PRODUCT DESCRIPTION

Designer: Will Earl

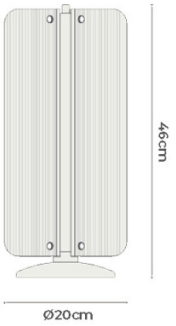

J. Adams & Co Apex Table Lamp

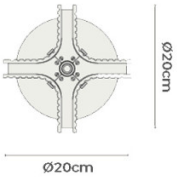

The J. Adams & Co Apex Table Lamp pairs textured, kiln-formed glass with solid brass for a sculptural aesthetic. Its textured glass brings depth to the geometric form, catching light to create subtle shifts in tone and reflection. The contrast between the tactile glass and smooth metal gives Apex a distinctive presence, making it an elegant focal point for a side table or bedside.

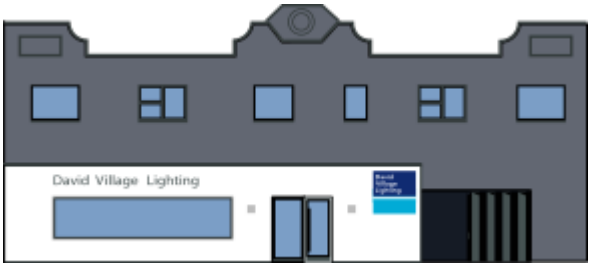

Handmade in England, each Apex Table Lamp features subtle variations in the glass and hand-finished metal, lending each piece its own individuality. When switched on, the integrated LED light source illuminates the textured panels, emphasising their pattern and adding depth to the lighting. Available in Antique Brass, Bronze, Satin Brass and Satin Nickel, Apex offers a choice of finishes to complement both contemporary and more traditional spaces.
