PRODUCT DESCRIPTION

Designer: SkLO

SkLO Hold Pin Pendant

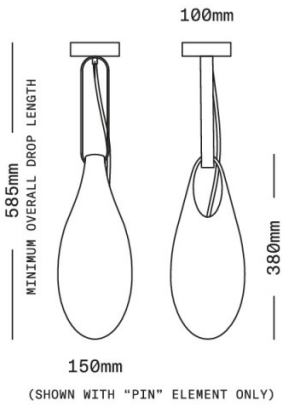

The SkLO Hold Pin Pendant is an expressive design handcrafted from mouth-blown glass. Its elongated shade creates the illusion of glass stretching from the brass pin. Crafted from a continuous brass ribbon, the pin opens and closes so the shade can be removed.

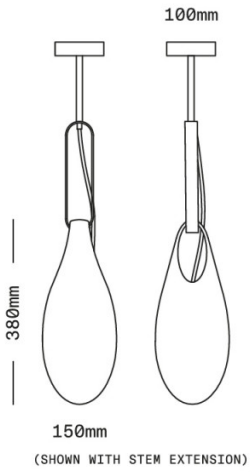

Available in a range of colourways, the Hold Pin Pendant gently diffuses light through its glass shade to create an ambient glow suited to communal spaces such as living areas, dining rooms, entranceways and stairwells. Its handmade nature means slight variations in colour and texture may occur. These variations are part of SkLO's intent and give each piece its unique character.

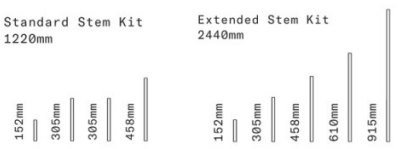

The Hold Pin Pendant includes SkLO's field-adjustable Standard Stem Kit (see specifications). A field-adjustable Extended Stem Kit (see specifications) is available at an additional cost. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	1 x Max 25W E14 LED (Included)
