Kartell Masters Chair

We currently have limited stock of one of these items in our Clearance section .

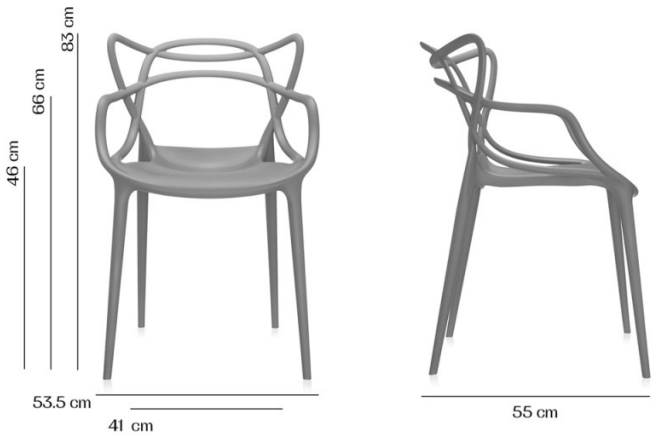

The Masters Chair by Philippe Starck for Kartell is a powerful tribute to three unmistakable symbolic chairs: "Series 7" by Arne Jacobsen, the "Tulip Armchair" by Eero Saarinen and the "Eiffel Chair" by Charles Eames. Starck blends these ideas to create a hybrid, birthing a fusion of original and engaging styles. The Kartell Masters Chair has practicality at its heart; it is light, stackable and can even be used outdoors. Standing on four slim legs, the Masters Chair is roomy and comfortable; an ideal dining chair.

The back of this design is its most fascinating feature, characterised by the fullness and empty spaces created by the curvaceous criss-crossing lines of three different backs which descend to merge into the edge of the seat. Kartell Masters' colour palette has also been updated to include sophisticated metallic finishes (gold, chrome and titanium). The **Masters Chair Collection** also offers a stool version of the Masters chair in two heights, winner of the Good Design Award 2010 and the Red Dot Award 2013, and a worldwide best seller.

Please Note: Due to the packaging process, Masters Chairs in a metallic finish are sold in packs of two. Other finishes are sold individually.
