PRODUCT DESCRIPTION

Designer: Arne Jacobsen

Louis Poulsen AJ 50 LED Outdoor Wall Light

Originally designed in 1957 by Arne Jacobsen for the SAS Royal Hotel in Copenhagen, the **Louis Poulsen AJ Collection** consists of a variety of wall, floor and table lamps and now has iconic status. The AJ Outdoor Wall Lamp is a robust addition to the range, and is striking yet not imposing; it has a swivelling shade and sculptural design.

The AJ LED Exterior Wall Light has a fixture head with a distinct, asymmetrical shape, which determines the light characteristics of the fixture. It is made from die-cast aluminium, making it extremely hardy and weather-resistant. The AJ 50 Outdoor Wall Lamp is designed for outdoor use and is ideally placed by doors to illuminate porches and decks, and is available in 3 lovely finishes: black, white or aluminium.
