PRODUCT DESCRIPTION

Designer: Ferruccio Laviani

Kartell Bloom CW2 Ceiling / Wall

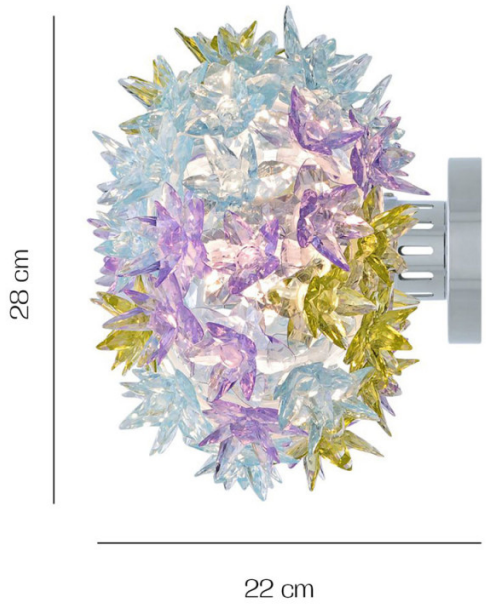

Resembling a delicate spring bouquet, the Kartell Bloom CW2 Ceiling/Wall Light was designed by Feruccio Laviani and crafted from technopolymer thermoplastic. The rounded silhouette is covered in numerous sparkling polycarbonate flowers, resulting in an organic aesthetic and a unique design. The inner three light sources are projected through these petals and reflected across the room in every direction, providing an indirect ambient glow that is perfect for a range of interiors.

The Bloom CW2 can be mounted onto the wall or the ceiling and is the smallest in the **Bloom Collection** and is available in four unique colours: white, crystal, mint and lavender. This elegant lighting solution adds a natural feel to hallways, entryways, dining areas and kitchens. Bloom is also a great choice for contemporary commercial spaces.

Please Note: this product requires on-site assembly.
