PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Giancarlo Fassina

Artemide Tolomeo LED Floor Lamp

Artemide Tolomeo LED Floor Lamp is the integrated LED version of the Tolomeo Floor, designed by Michele De Lucchi and Giancarlo Fassina. The aluminium and steel structure keeps the clean, minimalist lines of the 1987 design, with a floor support that increases the height of the body lamp.

The articulated arm system uses an innovative spring mechanism, allowing the lamp to be adjusted in height and tilt with flexible movement. A microswitch dimmer is integrated into the product, and the 3000K LED source gives the floor version a warm white output for reading, task lighting, or general use beside furniture.

Artemide Tolomeo LED Floor Lamp is available in Aluminium, with standard and Micro floor options. Best suited for reading corners, lounges, bedrooms, home offices, and work areas where an adjustable LED floor lamp is needed with the established Tolomeo form.

PRODUCT SPECIFICATION
