PRODUCT DESCRIPTION

Designer: Iskos-Berlin

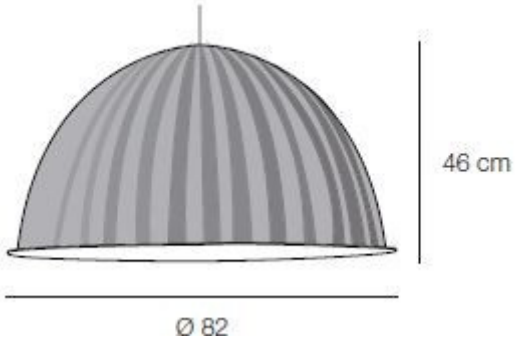

Muuto Under The Bell 82cm Pendant

The larger version of the Muuto Under The Bell Pendant, with a diameter of 82cm, this lighting solution is guaranteed to make a statement. Designed by Iskos-Berlin, this pendant light is crafted from recycled plastic, a textile that also functions as sound-absorbing and as such enhances the acoustics of any room. This makes the Under The Bell perfect for areas in your home where you host, such as a dining room or for corporate settings such as communal work areas or meeting rooms. The Under the Bell is available in Black, Dark Green, Grey, White Melange, and Blue Grey. This subtle colour palette brings a sense of calm and balance to interiors.

The name was inspired because when the pendant is switched on, the ambient light creates its own warm and welcoming space within the room. An excellent example of modern design with a touch of Scandinavian values. An perfect choice for your dining table, living room area or restaurants, coffee shops and hotel rooms. Muuto also offers a smaller version of the Under The Bell, with a diameter of 55cm, making it ideal for smaller spaces.
