PRODUCT DESCRIPTION

Designer: Broberg & Ridderstråle

Muuto Leaf LED Table Lamp

Designed by Broberg & Ridderstråle in 2012, the Muuto Leaf Table Lamp offers a unique silhouette, taking its inspiration and namesake from the leaves of a tree. Featuring integrated LED technology, the head of the Leaf Table Lamp is easily adjustable, allowing you to direct the illumination. For this reason, this lamp offers both directional task lighting and indirect ambient lighting and thanks to the integrated dimmer on the head, you can further personalise the light intensity and therefore the ambience it creates.

The Muuto Leaf Table Lamp is not only stylish but also functional. It is a beautiful addition to your workspace, bedroom, hallway or even dining space. It also makes an excellent reading light in cosy corners of your home and can be utilised in larger commercial interiors such as hotels, bars, restaurants and cafes.
