Verpan Fun 0DM Pendant

The Verpan Fun 0DM Pendant is an iconic design, regarded as one of Verner Panton's greatest masterpieces. Its impressive form is comprised of layers of seashell discs, hanging from a stainless steel frame. The cascading discs offer a sculptural presence, even when the pendant is not in use. When illuminated, the mother of pearl discs gently diffuse light for a comfortable glow. When moved, the pendant produces a melodic sound, similar to that of a wind chime.

The Fun 0DM is well-suited to living areas, entranceways, and dining rooms, adding a welcoming atmosphere while providing a lasting impression. As remarkable now as it was when it was designed in 1964, the Fun 0DM will provide a flamboyant and joyful presence to domestic and commercial interiors alike. Display with other pieces from the **Fun Collection** for a cohesive theme that creates a sense of balance.
