PRODUCT DESCRIPTION

Designer: Seppo Koho

Secto 4230 Wall Light

The Secto 4230 Wall Light is a refined addition to the Secto Design collection, showcasing the brand's commitment to sustainable craftsmanship and minimalist beauty. Designed by Seppo Koho and handmade in Finland, this wall light is crafted from PEFC-certified birch, offering a warm and inviting glow. The slatted shade softly diffuses light, making it an excellent choice for creating a welcoming atmosphere in hallways, living spaces, and bedrooms.

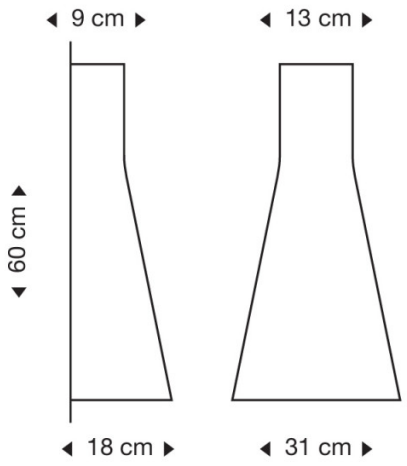

Available in natural birch, black, white, or walnut veneer finishes, the Secto 4230 Wall Light adds a touch of sophistication to any space. Its versatile design allows it to be mounted facing up or down, tailoring the light distribution to suit your needs. Whether you choose the direct wall mounting option or the exposed cable with switch and plug, the 4230 is both functional and stylish.

The Secto 4230 Wall Light is part of the wider **Secto**, which includes pendant, floor, and table lamps. Pair it with other designs from the collection to create a cohesive lighting scheme.

Please Note: The Hard-wired version of the Secto 4230 Wall Light can only be dimmed when fitted with a compatible dimmable LED bulb and suitable dimmer. The LED bulb supplied with the fitting is non-dimmable.
