PRODUCT DESCRIPTION

Designer: Bertjan Pot

Moooi Prop Light Round Double Suspension

The Prop Light Round Double is a theatrical and extravagant suspension, created by Dutch designer Bertjan Pot. Named after props found in film and plays, the Prop is a decorative piece, even when not in use. The muted tones of the frame suit a wide range of interiors, while its grand form creates an eye-catching display wherever it's placed.

The Prop Light Round Double Suspension houses 96 glass bulbs over the front and back. Clever use of LED units allowed Bertjan Pot to create lighting with the appearance of a traditional incandescent bulb, while providing the sustainability of LEDs. When lit, the Prop provides warm, bright lighting, perfect for illuminating a surface while creating a cosy and inviting atmosphere. With the option of installing in a range of angles, the Prop Round Double is suitable for spaces with both high and low ceilings. Install the Prop Light Round Double Suspension alongside other suspensions from the [Prop Collection](#) to produce a dramatic display of light that is bound to leave a lasting impression.

PRODUCT SPECIFICATION

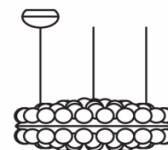

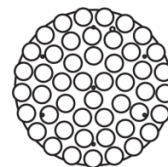

Light Source: 41W, 2700K, 1936 Lumens

IP Code: 20

Dimming: Dimmable via trailing edge dimming.

Dimensions: Ø73cm
Height: 25cm
Ceiling Canopy: 16 x 8cm
Cable Length: 400cm

73cm | 28.7"

25cm | 9.8"
