PRODUCT DESCRIPTION

Designer: Bertjan Pot

Moooi Prop Light Single Horizontal Suspension

A theatrical and bubbly suspension light, the Prop Light Single is part of the Prop Collection designed by Bertjan Pot. Pot, when commenting on his design, said it is hard for him to imagine any interior where a Prop Light is not present. Its muted tones offer versatility to the design, blending seamlessly into a range of decors, while the suspension can hang from either high or low ceilings.

The Prop Light Single suspension features 18 glass bulbs on its lower surface, as opposed to the Prop Light Double Horizontal, which houses bulbs on both sides. Within each bulb is an LED, meaning that the bulbs have the appearance of a traditional incandescent light while offering the sustainability of an LED. This well-considered design choice has given the Prop Single Suspension a theatrical appearance, even when not in use.

When illuminated, the Prop Light produces a bright and even downward glow. This functional illumination is perfect for use above surfaces such as a kitchen island or desk. Hang multiples in a row to illuminate long tables, or in clusters with other pieces from the [Prop Collection](#) for an extravagant display.

PRODUCT SPECIFICATION

Light Source: 21W, 2700K, 499 Lumens

IP Code: 20

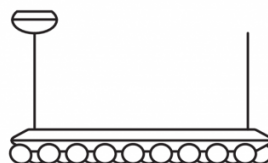

Dimming: Dimmable via trailing edge dimming.

Dimensions: Length: 98cm
Width: 18cm
Height: 13cm
Ceiling Canopy: 16 x 8cm
Cable Length: 400cm

98cm | 38.6"

18cm | 7.1"

13cm | 5.1"
