PRODUCT DESCRIPTION

Designer: Piero Lissoni

Flos Light Bell LED Pendant Light

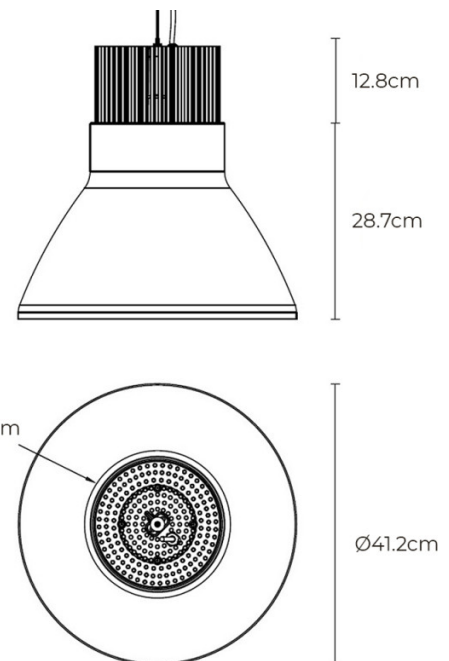

The Flos Light Bell Pendant, designed by Piero Lissoni, is a suspended general downlighting source, providing a low-energy, high-performance light output. The shapes of the reflector and opalescent diffuser have been carefully engineered to control the high-output LED light engine, whilst LED cooling technology is managed through the innovative pin and fin heat sink, which discreetly contains the integral driver.

Light Bell can be adapted to a variety of contemporary interiors and can be used individually or in multiple compositions. An eye-catching addition to kitchens, dining spaces, hotels, restaurants and bars. With its classic bell-shaped shade, the Light Bell Pendant is suitable for both residential and commercial applications and is available in the following colour finishes: black/gold, black/copper, brown/gold, white/aluminium, polished aluminium/anodised aluminium and transparent.

Please Note: The Light Bell pendant comes complete with a grey ceiling rose.
