PRODUCT DESCRIPTION

Designer: Sebastian Wrong

Flos Soft Spun LED Floor Lamp

The Flos Soft Spun Floor Lamp was inspired by the original simple design of Wrong's [Spun Lamp](#), whilst also reinventing its usage, with the Soft Spun lamps being mounted and plastered directly into the wall with only a half profile revealed. The Soft Spun LED Floor lamp requires flush installation into a plasterboard wall, and so is perfect for lighting hallways or as a floor lamp in a living area.

Providing a diffused, soft glow, the Soft Spun Floor Lamp offers unique accent lighting and can adapt to a range of interior styles. This plaster-in floor lamp can also be painted to seamlessly blend into internal walls, or left white for contrast or to have minimal impact on a space. The [Soft Spun Collection](#) also includes a [Table Lamp](#).
