PRODUCT DESCRIPTION

Designer: Oki Sato

Louis Poulsen NJP Table Lamp

Designed by the founder of Nendo design studio, Oki Sato, the Louis Poulsen NJP Table Lamp is a versatile light, perfect for many functions. Inspired by a classic desk lamp design, Sato has interpreted it to create a new and contemporary table lamp that has an intriguing shade that opens up towards the back. This allows for the light to flow outwards, illuminating the arm to create a warming effect. The light also softly flows out of the shade, being able to be directed where you need it by the adjustable lampshade and arm.

The NJP Tabl Lamp has an integrated LED light source which comes in either a 2700K (warmest white) or 3000K (warm white) colour temperature. The table light is available in 3 chic colours, and the switch has 2 dimming options so you can create the right atmosphere, whether you want a brighter light for reading or a softer light for a cosy night in. Use in many settings, in both the home and professional spaces, on tables, desks, side tables or shelves.

PRODUCT SPECIFICATION

Light Source:	**2700K**: 10W, 2700K, 529 Lumens **3000K**: 10W, 3000K, 550 Lumens
IP Code:	20
