PRODUCT DESCRIPTION

Designer: Enzo Catellani

Catellani & Smith Lucenera 504 LED Pendant Light

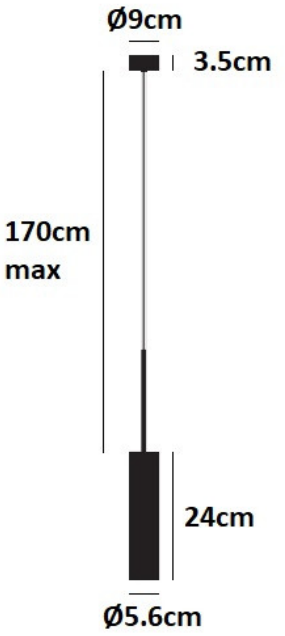

The Lucenera pendant is a minimalist design that provides a simple downlight, ideal for bringing a spotlight above a table or workspace. The minimal design is available in a black finish that complements every interior and style. The concept behind the Lucenera is taking the limelight off the lamp and giving centre stage to the light. This is clear through the detailing of the design and the way in which the light can be adjusted and enjoyed.

A rod on the back of the tubular shade allows you to push the light source closer to the opening or pull further back into the shade. This action allows you to increase or decrease the light intensity and the size of the beam. This puts the emphasis on the functionality and importance of the light rather than the lamp. This makes the Lucenera 504 pendant ideal as a stylish task light that will focus and direct its glow.
