Artemide La Petite Table Lamp

The La Petite Table Lamp was designed by Andrea Quaglio and Manuela Simonelli for Artemide. The duo created their version of the classical lampshade and perfectly balanced it on an asymmetrical stem. A simple look, yet it conveys the technological skills of Artemide. The light benefits from dual diffusers, offering both a direct and indirect soft light, making this lighting solution perfect for a range of settings. Meanwhile, the lampshade of the Artemide La Petite acts as a counterbalance for the tilted aluminium stem on the body, and adds a unique geometric aesthetic to the silhouette.

La Petite also includes a **Floor Lamp** and a **Wall Light**, all of which can be used independently or alongside other applications in the family for a more cohesive interior aesthetic. The monochromatic white or black finish options also make the La Petite Table Lamp an easy choice for contemporary homes.
