PRODUCT DESCRIPTION

73 Series Chandelier Light by Bocci

A part of the [Bocci 73 series](#), the chandelier lights are made up of either 8, 11 or 20 individual pendants with non-adjustable cables, creating a magnificent and opulent look. Each pendant light is made by blowing liquid glass into a ceramic fabric vessel resulting in a unique and textured shade that is intriguing and captivating.

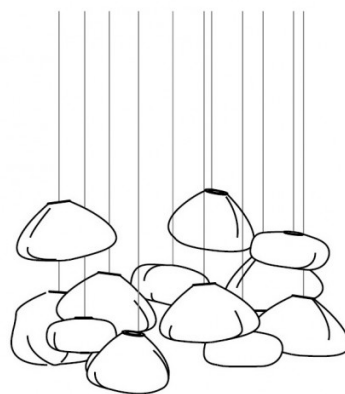

The included light bulbs (with the choice between a **Xenon 10W** and **LED 1W** light bulb) are concealed by the glass and produces a warm and effective illumination. The chandeliers are best used in big spaces with high ceilings due to their big size and aesthetic. Suitable for both homes and commercial settings, the 73 Series chandeliers are perfect for making a splash in your interior. Choose from a round, square or rectangular ceiling canopy to get the right design for your space.

Please Note: All Bocci Suspension Lights come with a white ceiling canopy as standard. Other finishes are available, please [contact us](#) for more information and pricing.
