PRODUCT DESCRIPTION

Designer: Paolo Lucidi & Luca Pevere

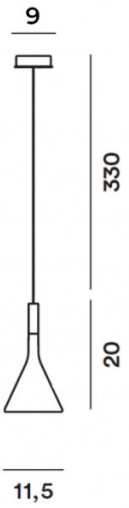

Foscarini Aplomb Mini Pendant Light

Foscarini's Aplomb was born from the desire to use rough concrete, typical of large modern buildings, to create a light object in slender, refined forms and has been hugely successful ever since its inception. A special concrete formula which can be poured into slender moulds has produced an elegant and inimitable product. By using the same material, Foscarini proposes an even smaller version of the original Aplomb pendant lamp.

Available in various finishes, the Mini Aplomb Pendant looks great when used individually or can be combined in a series using the same colour or mixing the finishes. This pendant works perfectly to hand over tables and surfaces to act as a spotlight or can be combined with bigger lights from the collection to create a feature light. Wonderful for kitchens, lounges and dining areas in both workplaces and homes.
