Secto Petite 4630 Wall Light

The Secto Petite 4630 Wall Light offers a compact and stylish lighting solution for cosy interiors. Its handmade slatted shade, crafted from PEFC-certified Finnish birch, emits a warm, soft glow, perfect for bedrooms, living areas, or hallways. The rotatable shade adds practicality, allowing light to be directed exactly where it's needed.

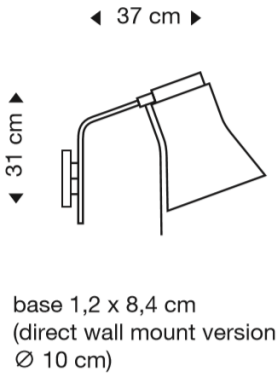

The Petite 4630 can be hardwired for a sleek finish or installed with exposed wiring for a relaxed, Scandinavian aesthetic. Its minimalist design and small size make it an excellent choice for creating ambient lighting in both residential and commercial settings.

Available in natural birch, walnut veneer, white laminate, and black laminate finishes, the Petite 4630 wall light is part of the **Petite range**, which includes pendants, table lamps, and floor lamps.

Please Note: The Secto Petite 4630 Wall Light in Birch, White and Walnut is supplied with a white steel arm and white textile cable as standard, while the Black finish is supplied with a black arm and black cable. The standard version features a 220cm cable with an in-line on/off switch. A Hard-wired version for direct wall mounting is available on request. Please contact us for further information.
