Astro Goya 460 LED Picture Light

The Astro Goya 460 LED Picture Light is a slim, contemporary wall light designed to illuminate artwork, photographs, and mirrors with an even spread of warm light. Its clean, linear form makes it easy to position above framed pieces, while the finish options allow it to complement both traditional and modern interiors. Available in Brushed Nickel, Antique Brass, and Polished Chrome, Goya offers a choice of cooler and warmer metallic tones.

Goya 460 includes an integrated LED light source with a warm 2700K colour temperature, making it well suited to highlighting decorative surfaces in a softer, more ambient way. The head can be tilted by up to 90°, allowing the direction of the light to be adjusted depending on the size, depth, and position of the piece being illuminated.

Designed for interior use, Goya 460 can also be installed in the bathroom zone 3. It is non-dimmable, wired in, and suitable for mounting on flammable surfaces, making it a practical picture light for both residential and commercial projects.

Best suited to artwork, framed photographs, mirrors, galleries, hallways, hotel rooms, and bathroom zone 3 feature lighting.
