## PRODUCT DESCRIPTION

**Designer:** Astro Design Team

### Astro Goya 460 LED Picture Light

The Astro Goya 460 LED Picture Light is a sleek, contemporary wall light designed to illuminate artwork, photographs and mirrors with a soft, even spread of light. Its clean linear form makes it easy to integrate into a range of interiors, while the finish options allow it to complement both traditional and more modern spaces. Available in Brushed Nickel, Antique Brass and Polished Chrome, Goya offers a choice of cooler or warmer metallic tones depending on the setting.

Goya 460 includes an integrated 7.5W LED light source with a warm 2700K colour temperature, making it well suited to highlighting framed pieces and decorative surfaces in a more flattering, ambient way. The head can be tilted by up to 90°, allowing you to adjust the direction of the light and refine the illumination depending on the size and position of the artwork or mirror.
