Astro Cabaret Wall Light

The Astro Cabaret Wall Light is a contemporary bathroom wall light that takes inspiration from classic Hollywood mirror lighting. Its slender linear frame is paired with a row of acid-etched white glass globes, creating a clean and balanced look that suits both modern bathrooms and dressing areas. Available in matt black or polished chrome, Cabaret offers a choice between a darker, more graphic finish and a brighter, more reflective one.

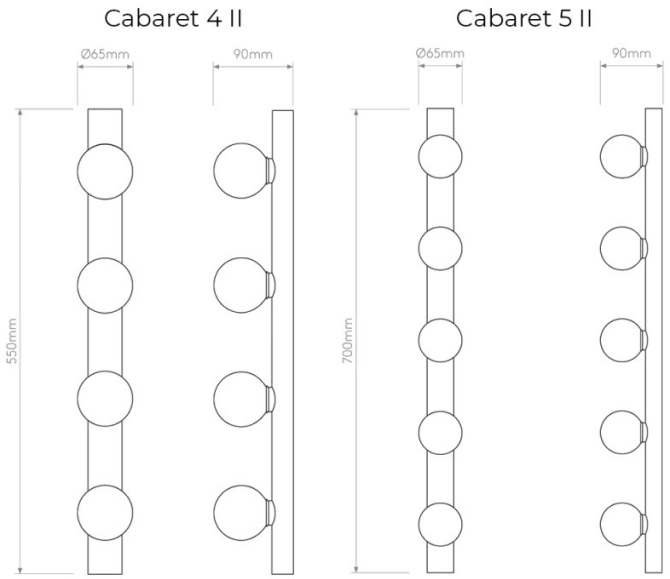

Designed for use around mirrors, Cabaret can be mounted either vertically or horizontally, making it flexible for a range of layouts. The collection is available in four-light and five-light versions, allowing you to choose the right scale for smaller vanity areas or wider mirror arrangements. The acid-etched glass helps produce a bright, even glow that is well-suited to grooming and everyday bathroom use.

Cabaret uses G9 lamps, sold separately, and is dimmable when paired with compatible dimmable bulbs. Rated IP44, it is suitable for bathroom zones 2 and 3, and its unswitched design allows it to integrate neatly into existing wall lighting schemes. Suitable for mounting on flammable surfaces, it is a practical and versatile choice for both residential and hospitality settings.

The Cabaret is also available as an LED version. Please contact us for more information.
