PRODUCT DESCRIPTION

Designer: Benjamin Hubert

Fabbian Roofer Suspension

An innovative design by Benjamin Hubert, The Fabbian Roofer Suspension draws inspiration from roof tiles which is represented in its name. This lighting solution is crafted from a metal structure with an array of semi-rigid rubber tiles that are placed at varying heights to resemble a roof, thanks to the chosen material these tiles can be easily machine washed at 30 degrees in ored to be easily cleaned if and when needed.

Available in two sizes and four earthy finishes, the Roofer Suspension is a modern lighting solution with a lot of character, featuring a fabric diffuser underneath the illumination this hanging lamp produces a functional and glare-free downlight. Roofer is a beautiful addition to kitchens, dining rooms, study, restaurants, communal offices and meeting rooms. Adding a touch of playful modernity to any space.
