PRODUCT DESCRIPTION

Designer: Oki Sato

Lous Poulsen NJP Wall Light

Perfect for big and small spaces, the NJP wall lamp was designed by Oki Sato and is a contemporary, inventive light that is very versatile. The shade and arm of the wall light can be adjusted, allowing you to direct the light where you need. The integrated LED light is energy-efficient and offers a choice of 2700K (warmest white) or 3000K (warm white) colour temperature.

The NJP wall light is available in 4 colours, white, dark grey, black or light grey, which all look wonderful in any interior. You can use the wall lamp to line the walls in your corridor, hallway, lounge, bedroom and many more, and it is useful for domestic and commercial settings. For a wall light with a further reach and even more flexibility, Louis Poulsen also offers the **NJP Long Arm Wall Light**.

Please Note: The NJP Mini Wall Light needs to be installed by a socket as it has a cable and plug. Alternatively, it can be supplied as a hardwired version. Please contact us for more information and pricing.
