PRODUCT DESCRIPTION

Designer: Philippe Starck & Eugeni Quitllet

Kartell Generic A Chair

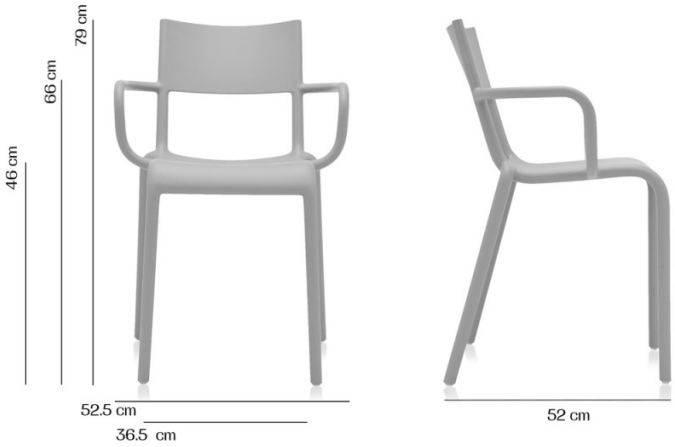

The Kartell Generic A Chair is part of an exploration, one where designer Philippe Starck wished to retreat to the bare essentials, the minimum. It is that minimum that Philippe believes holds the beauty and the essence of his furniture. The simplicity in the design of the Generic chairs makes them elegant, timeless and perhaps even invisible. The Generic A is a chair that you find everywhere: the hotel, the hospital, the ministries, the restaurant, the library. For Philippe, the Generic A is elegant yet mysteriously obvious.

With a high and wide seat-back, comfortable armrests and a generally functional design, this design is meant to be of service for the general public. The Kartell Generic A chair is available in 5 pastel colour options and can be used in both indoor and outdoor settings. Display this seating solution individually, in multiples, and even alongside the **Generic C Chair**.

Please Note: Due to the packaging process, Generic A Chairs must be ordered in a pair.
