PRODUCT DESCRIPTION

Designer: Philippe Starck & Eugeni Quitllet

Kartell Generic C Chair

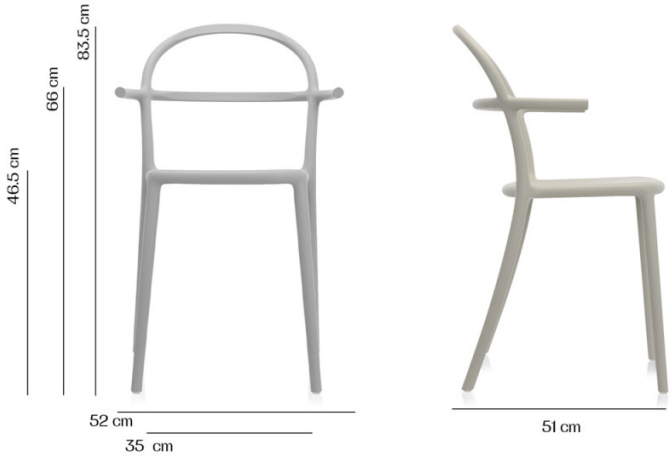

Philippe Starck's Generic C Chair design is part of a project tied to ethical undertones; his idea is to strip the chair to its core. Generic is a minimum, a timeless and elegant designer chair, exactly because it's invisible. Philippe seeks to bring out the beauty in simplicity, stripping the chair of all other details.

The Generic C, true to its nature, has simple and small lines, a wide seat back, a high armrest and a comfortable seat. The silhouette utilises curved lines and is a softer variation of the **Generic A Chair**. This seat is available in 5 matt colours, and its attributes mean it can be used in a restaurant, a cafe, a meeting room, a seating area, a dining room, or in the garden.

Please Note: Due to the packaging process, Generic C Chairs must be ordered in a pair.
