PRODUCT DESCRIPTION

Designer: Christophe Mathieu

Bover Drip/Drop A/02 Wall Light

The Drip/Drop A/02 LED Wall Light is the perfect lighting solution if you are looking to save space in your room. Designed by Christophe Mathieu for Bover, this wall light emits a beautiful and functional downlight, through a borosilicate glass shade - this shade is available in two different shapes, either the Drip or the Drop. Each shade has its own personality and gives the impression of being in the presence of a completely different lamp when switched. The Drip glass shade boasts sharp yet elegant lines and is a much more minimalistic option, whereas the Drop shade prides itself on its dramatic presence. The Drop harbours defined curves and a much more playful personality.

Both shades assist in the emission of a glare free lighting solution which is perfect for next to the bed in your home or in hotels. The Drip Drop A/02 LED Wall Light can also be utilised in lounge areas as a reading lamp, in your hallway or even in a bathroom.

(Please Note: this wall light has an IP20 certification, so whilst it can be used in bathrooms please keep it a safe distance from water sources. See our information on bathroom zones [here](#).)
