KDLN Lannà Table Lamp

Designed by Noé Duchaufour Lawrance, the KDLN Lannà Table Lamp brings the poetic character of the **Lannà Collection** to a compact, versatile form. Inspired by the Thai tradition of releasing lanterns into the night sky, it features an opal diffuser made from two layers of blown glass, held within a slender coated metal frame that gives the shade a delicate, floating appearance.

When switched on, Lannà Table Lamp emits a warm, diffused glow that creates a welcoming atmosphere without overpowering the space. Available with black or brass detailing, it works beautifully on bedside tables, in reading nooks, and living room side tables, adding sculptural elegance and soft ambient light to both residential and hospitality interiors.
