PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Aura Plus LED Wall Light

Marset Aura Plus LED Wall Light is the larger version of Joan Gaspar's Aura wall light, a circular glass fitting inspired by the shape and familiarity of a traditional glass carafe. The blown glass shade sits close to the wall, spreading light across the surface while giving the fitting a clear decorative presence when switched both on and off. Its rounded form makes it easy to use on its own, in pairs, or repeated along a hallway or hospitality space.

The Aura Plus With Canopy is available in Transparent, Opal, and Transparent Smoked finishes. Transparent keeps the fitting light and open, Opal gives a softer and more even appearance, and Transparent Smoked adds a darker tone to the glass. The structure is black on the Transparent and Transparent Smoked versions, while the Opal version is supplied with a white structure.

The Aura is hardwired and dimmable via Triac dimming. The integrated LED gives a warm 2700K light, suited to ambient wall lighting. Most suited to hallways, bedrooms, living rooms, dining spaces, hotels, restaurants, and interiors where a glass wall light can add a soft wash of light to the wall.

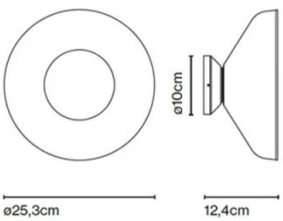

PRODUCT SPECIFICATION

Light Source: 12.3W, 2700K, 416 Lumens

IP Code: 20

Dimming: Dimmable via Triac dimming.

Dimensions: Shade: Ø25.3cm
Depth: 12.4cm
