PRODUCT DESCRIPTION

Designer: Omar Carraglia

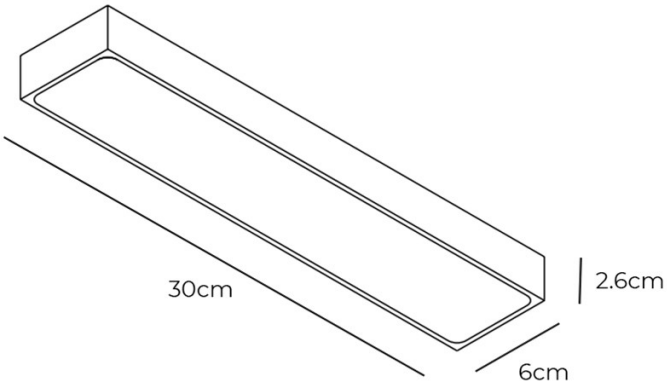

Davide Groppi Linet Wall Light

The Davide Groppi Linet Wall Light was designed in 2014 by Omar Carraglia. The luminaire is a pure structure, a simple container for the light source, that is projected down onto the wall below. Linet Wall is a single-emission lamp that supplies ample glare-free indirect illumination. Incorporating the Linet Wall Light into any space creates an architectural element.

Linet Wall Light was designed to add a touch of sophistication and luxury to any space, be it a residential or a commercial establishment. The wall light can be displayed independently or sequentially across a long hallway for a dramatic and luxurious aesthetic, and it has been designed in minimalistic two colourways: black and white. This allows it to easily adapt to a variety of interior styles.
