Kartell TOY LED Table Lamp

An iconic collaboration between Moschino and Kartell, the TOY LED Table Lamp is a playful design by Jeremy Scott that adds a fun touch to your home. The TOY wears a white T-shirt with a logo to remind everyone that this is not yet another Moschino toy, a play on words. The integrated LED is housed within the structure of the table lamp, and the illumination is softly diffused through the shade, resulting in a soft, ambient glow.

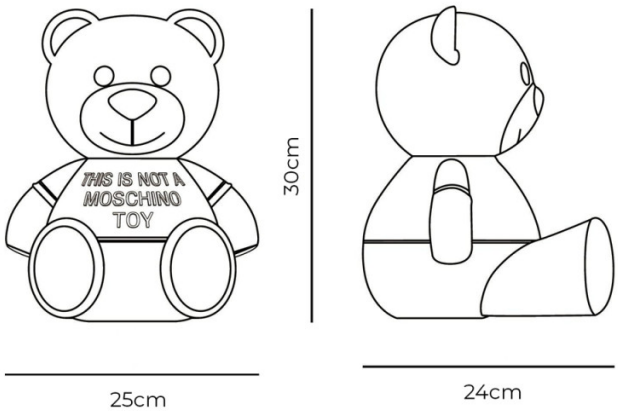

This unique design is a perfect way to curate ambient lighting in children's rooms, living rooms, bedrooms and dining areas. In 2020, Kartell and Jeremy Scott worked together again to bring us the TOY lamp in a metallic gold finish, a lavish version of the original table lamp. The TOY in gold still retains the "I am not a Moschino toy" label on the front.
