PRODUCT DESCRIPTION

Designer: TAF Studio

Ambit Wall Light by Muuto

Muuto's bestselling Ambit light is now available as an adjustable wall light. The arm of the Ambit Wall Lamp can be adjusted around an axis of 120 degrees from the wall bracket. The shade can be turned 60 degrees to either side, allowing you to choose from either direct or indirect light as required.

With a quiet, modern expression, the Ambit Wall Lamp is a truly versatile wall light, perfect for placement as a bedside lamp or above a desk or kitchen table. Available in 3 colours.

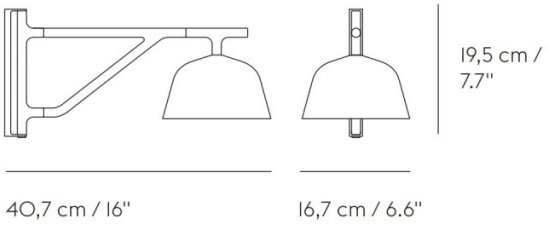

Installation: Install your Muuto Ambit Wall Lamp the Scandi way by leaving the cord exposed and plugging the product into a wall socket. There is an on/off switch included in the cable. Alternatively, this product can be hardwired if desired and an additional attachment, to enable this option, is included in the box (the on/off switch and plug will need to be removed from the cable if you wish to hard wire the product).

Light Source: The Ambit Wall Lamp includes a replaceable LED light source made by Muuto. Each light source has a lifespan of approximately 30,000 hours.

See the rest of the Ambit Collection.
