PRODUCT DESCRIPTION

Designer: Pierre Charpin

HAY PC Pendant Lights

The HAY PC Pendant Lights were designed by Pierre Charpin who designs lights which are 'more sensual than technical'. This can be seen in the design of the HAY PC Pendant as the uninterrupted design cleverly conceals the light source within an anodised aluminium shade and translucent polycarbonate removeable diffuser. This creates a smooth sleek silhouette that has been described as being 'readable as a whole'.

This simple ceiling light beautifully diffuses light through the moulded diffuser and gently brightens up the surroundings. This 'user-friendly' design is made suitable for the home as well as in the workplace. This pendant light is also available in different finishes and sizes, therefore, making it a limitless design vision that can easily fit into any interior. The visual simplicity of this design is an intentional choice from the designer as he uses the colour to unify the different elements and materials together.
