PRODUCT DESCRIPTION

Designer: Arihiro Miyake

In The Wind Floor Lamp by Nemo Lighting

The In The Wind Floor Lamp by Nemo Lighting is part of a collection by designer Arihiro Miyake. Designed by distorting and shaping aluminium, this LED integrated lamp has a 360° glow that is achieved through a contemporary aesthetic. An answer to how the actual light source can now be shaped and moulded in modern light design, Miyake creates a spiralled lamp that is both simple yet eye-catching.

Available in four colours, white, black, gold and titan grey, this floor lamp creates a warm luminescence that works perfectly in lounge areas. With a built in dimmer switch, this lamp can help you create the right atmosphere, whilst also causing a spectacle thanks to its modernistic and progressive design.
