PRODUCT DESCRIPTION

Designer: Massimo Minale

Buster and Punch Caged 1.0 Ceiling / Wall Light

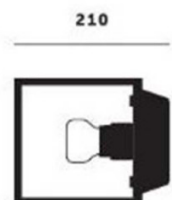

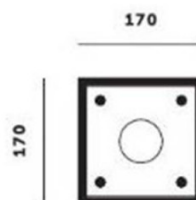

The Buster and Punch Caged 1.0 Ceiling and Wall Light was designed by Massimo Minale, with the aim of broadcasting the puck-shaped LED light bulb. This bulb is a Buster and Punch staple and is finished with an opal polycarbonate shell to emit a uniform and warm-white light. Minale took inspiration from the London skyline, where he resided, reminding him of his time as an architect. Leaning into the industrial style, the matt black metal cage which surrounds the light source provides a solid polished marble back panel, which is available in white or black and is interchangeable.

The compact size of the Buster and Punch Caged Ceiling/Wall Light makes it suitable for a range of environments, such as your hallway, bedside, living area, or kitchen. Caged can be displayed individually or as part of a cluster to provide a statement piece in larger interiors, this Ceiling/Wall light can be used in multiple compositions combined with other Caged lights from the [Caged collection](#) to create large, unique and impactful arrangements.

Now also available as an IP-rated version; [Caged Wet Ceiling Light](#). Allowing for use in bathrooms and wet rooms.
