PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Jaima LED Outdoor Pendant Light

Marset Jaima by Joan Gaspar has been designed around textiles: flexible and ductile materials which softly diffuse the light as well as move with the wind. This new collection takes its name from the Bedouin tents of North Africa and is inspired by their varied fabrics and forms. The textile shade is available in three sizes and two different colours, with a white interior to optimize the quality of the downward light.

Marset Jaima is the perfect pendant light to install in outdoor social spaces such as decked seating areas or a garden pagoda. Create a cosy atmosphere and extend your living space outside. Jaima collection has an organic aesthetic with an earthy colour pallet and natural-looking fabric which works perfectly in an outdoor setting.
