PRODUCT DESCRIPTION

Designer: Arne Jacobsen

Louis Poulsen AJ Stainless Steel Floor Lamp

To commemorate the 60th anniversary of the opening of the SAS Royal Hotel in Copenhagen, Louis Poulsen has rereleased the AJ Floor Lamp in its original polished stainless steel finish. Iconic architect and designer Arne Jacobsen designed the stainless steel finish in 1957 as part of the overall design concept for the SAS Royal Hotel.

The Louis Poulsen AJ Stainless Steel Floor Lamp is now available, and the polished finish reflects its surroundings and highlights its minimalist but iconic shape. The floor lamp emits a directional light as the shade can be directed and will add a stylish and timeless touch to many different types of spaces. A true collector's item that is decorative, versatile and very functional to use as an ambient light and a reading/task lamp.
