PRODUCT DESCRIPTION

Designer: Arne Jacobsen

Louis Poulsen AJ Mini Table Lamp

To celebrate 60 years since the release of the **AJ Table Lamp**, the AJ Mini is a smaller and even more versatile light. Originally conceived by Arne Jacobsen for his 1960 architectural triumph, the SAS Royal Hotel, the AJ Mini Table Lamp is the size of the table lamps used in the bedrooms of the hotel, bringing a past design to the modern eye in its original conception. The AJ Mini combines sleek and clean lines with a minimalist design to produce a truly timeless and iconic table light.

The Louis Poulsen AJ Mini Table Lamp is available in a variety of beautiful colours, guaranteed to add an intriguing and vintage touch to your room. The shade can be angled wherever you need to cast a light and emits a soft downward light, perfect for both tasks and ambience. The small size of the mini table lamp means it can fit in even smaller spaces and looks wonderful on window sills and shelves. This table lamp is suitable for both home and professional spaces and will look good alongside other lights from the **Louis Poulsen AJ Collection.**
