PRODUCT DESCRIPTION

Designer: Norm Architects

Audo Copenhagen Hashira Pendant

As with the rest of the collection, the Audo Copenhagen Hashira Pendant Light comes with a tubular, column-like shape, meticulously covered with a see-through fabric. The textile allows you to still make out the interior metal structure, which becomes part of its allure. Designed by Norm Architects, the Hashira Pendant borrows details from traditional, oriental lamps. The design studio is known for stripping its light designs to the bare minimum, where nothing else can be removed, and nothing more is needed.

The Hashira Pendant is available in a small (66cm) or large (96cm) size, and would suit perfectly above a dining table, reception area or in hospitality areas, adding a warm ambience in any room. This luminaire can be used independently or alongside other designs in the **collection**.
