Lodes Jefferson Pendant

Designed in 2019 by Nichetto Studio, the Lodes Jefferson pendant takes influence from psychedelic music and artwork from the 1960s. The spiralled motif throughout the pendant creates a bohemian aesthetic evocative of the time period. The glass diffuser encapsulates the internal metal structure for a soft, glare-free spread of light. When illuminated, the shade's vortex design refracts light, creating a captivating play of light and shadow.

The Jefferson Pendant is available in two finishes, Black Chrome or Gold, and in a choice of two sizes. These variant options add versatility to the pendant, allowing users to create captivating compositions by installing unique clusters of lights in varying colours and sizes. Alternatively, display a single pendant to add an ornate detail to the room. This flexibility allows the Jefferson to blend seamlessly throughout the home, whether in rows above a kitchen island, large clusters in a stairwell, or as a single statement piece in a living room.
