PRODUCT DESCRIPTION

Designer: Alberto Saggia & Valerio Sommella

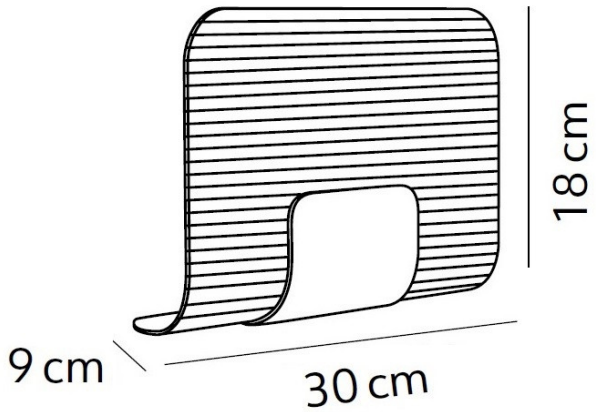

KDLN Nami LED Wall Lamp

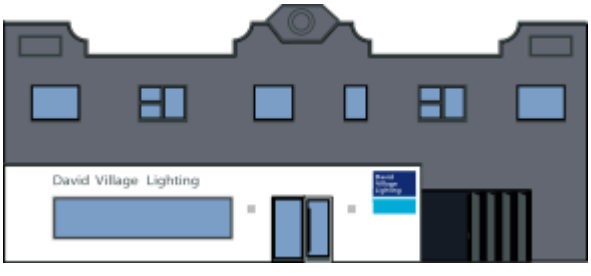

Designed by Alberto Saggia and Valerio Sommella, the Nami Wall Light is an elegant and graceful design with a mysterious, intriguing aesthetic. Its name, Nami, means wave in Japanese, which reflects the rippled effect of the lampshade and its connection to the sea. Playing with perspective, the design captures the enigmatic quality of water and the natural beauty of reflected light.

The Nami Wall Lamp is available in Black or Brass, offering a subtle yet evocative addition to a wide range of interiors. Its integrated LED light source is long-lasting and emits a warm, inviting glow. As light is reflected off the shade, an ambient glow is cast upwards and outwards. Ideal for corridors, lounges, hallways, offices, and commercial spaces, the Nami Wall Light creates a comforting and atmospheric ambience.
