PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Grant LED Pendant

Normann Copenhagen Grant LED Pendant was designed by Simon Legald as part of the [Grant Collection](#). A combination of polished metal and granite defines a collection of pendants. The Grant Pendant is available in a black or brass finish, whilst each shade is paired with a black granite fitting which has been placed on the top of the shade. The metal contrasts with the granite, creating an intriguing yet elegant aesthetic for a variety of interiors.

The Grant Pendant is available in two sizes which can be featured in both a commercial or residential setting, with an integrated LED light source which is diffused and has a warm glow because of the dispersion lens in the shade, and particularly thrives when hung over tables. Designed to be timeless and graceful, this pendant is a wonderful choice for a centrepiece as it evokes conversation and stories within its décor. Grant can be displayed beautifully as a single piece or in a cluster above a dining room table.
