PRODUCT DESCRIPTION

Designer: Jordi Canudas

Marset Dipping Light Portable LED Table Lamp

Marset Dipping Light Portable LED Table Lamp brings the layered glass character of Jordi Canudas' Dipping Light into a cordless format. The glossy blown glass globe is built up with rings of painted colour, filtering the light through the shade and giving the lamp its soft, shaded appearance. Its slim Brushed Brass body keeps the design easy to place, while the glass globe gives it enough presence to sit neatly on a shelf, side table, bedside table, or smaller surface.

Because it is cordless, the Dipping Light Portable can move around the room rather than staying tied to one surface. It is easy to place on a bedside table, shelf, sideboard, or dining table for a softer pool of light in the evening, then move elsewhere when it is needed. The brighter White, Green, and Amber finishes feel more expressive, while Burgundy, Chocolate, and Cream are quieter and easier to work into softer interior schemes.

The switch and three-position dimmer are built into the body, so the light can be adjusted without reaching for a cable or wall control. At full brightness, the battery lasts up to 5 hours, stretching to 20 hours on the lowest setting, with a charging cable included for topping it back up. Most suited to bedside tables, shelves, sideboards, dining tables, and hospitality spaces where a small portable lamp can bring warm, coloured light to different parts of the room.

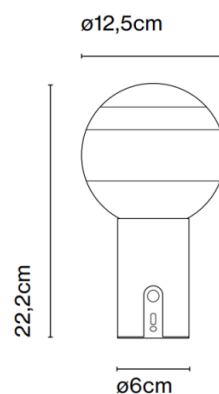

PRODUCT SPECIFICATION

Light Source: 3.5W, 2700K, 216 Lumens

IP Code: 20

Dimming: Integrated dimmer on product.

Dimensions: Shade: Ø12.5cm
Base: Ø6cm
Height: 22.2cm
