PRODUCT DESCRIPTION

Designer: BIG

Artemide Gople Portable LED Table Lamp

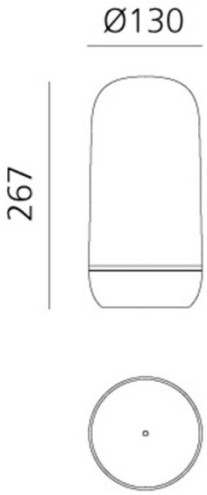

Artemide Gople Portable LED Table Lamp utilises a plastic diffuser for durability across various environments, allowing the user to be the architect of light. This compact lamp offers a soft, diffused output and was recognised with the Archiproducts Design Award 2020 in the Lighting category.

Long running times go hand in hand with rapid recharging, providing up to 32 hours of use with a 3 hour fast charge via a USB C port. Light levels can be adjusted across three different brightness settings using the integrated slider dimmer located on the product.

Artemide Gople Portable LED Table Lamp suits everyday scenarios in personal spaces and social moments in public environments. This design remains a versatile addition to the wider collection designed by BIG, Bjarke Ingels Group and is ideally suited for bedside tables or outdoor dining areas.
