PRODUCT DESCRIPTION

Designer: Euga Design

Panama LED Table Lamp by Nemo Lighting

Created by Euga Design, the Panama table lamp is an exploration into LED lighting used for decorative purposes as well as function. What results is a sleek aluminium disc lampshade that sits atop a simple stem with a coned base. Available in a coal black or white textured colour finish, the Panama table light can be used in many design schemes.

This table light is also available in 2 sizes, the Panama Mini and the regular Panama size. You can use on desks, tables, side tables and more in work places and homes to provide an efficient and effective glow. The polycarbonate reflector allows for an anti-glare illumination and will not disappoint in your interior.
