PRODUCT DESCRIPTION

Designer: Verner Panton

VP Globe Coloured Glass Pendant

The Verpan VP Globe Coloured Glass Pendant is a striking sculptural light originally designed by Verner Panton in 1969. A transparent acrylic outer sphere houses reflectors, crafted from coloured glass and aluminium, which are suspended by three steel chains. The bold accents of red and blue create a layered, futuristic expression that captures Panton's playful approach to design.

Producing diffused, glare-free light, the VP Globe Coloured Glass Pendant brings a warm and ambient glow to its surroundings. Whether placed above a dining table, in a hallway, along a corridor or as a decorative focal point in a corner, it offers both functional illumination and distinctive visual impact. Suspended from a chrome-plated canopy with a black fabric cable, the VP Globe Coloured Glass Pendant is a bold choice for interiors that celebrate colour, form and timeless Danish design.

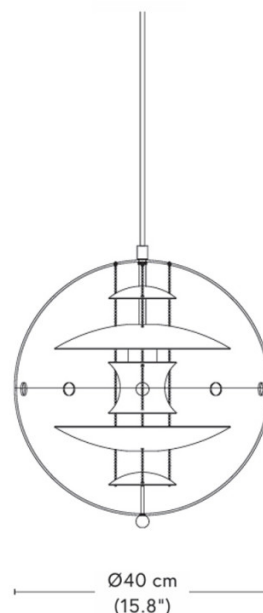

PRODUCT SPECIFICATION

Light Source: 1 x Max 60W E14 (Excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Ø40cm
Cable Length: 400cm
